Report on FDP

Name of the Programme: A one week FDP on “3D Printing in Pharmaceutical Drug Delivery: Prospects and Challenges”.

Organized by: NRI College of Pharmacy

Date: 23.08.2021 to 29.08.2021

Resource Person: Dr. Ch. Aruna Kumar
Assoc Prof, CHIPS-Guntur
Mobile no: 8500925346
Emailid: charunakumar@chips.ac.in

Objective of FDP

The objective of this FDP is to develop interaction between 26 utrac industries and academia on various personalized drug delivery systems and the use of 3D printing in drug delivery.

Outcome of FDP

Theoretical overview on various drug delivery systems and using 3D printing in drug delivery is provided. Training sessions on personalized drug delivery systems, 3D printing technology and operation 3D printers provided knowledge on available technology, its uses and challenges faced by this technique after traditional methods. Purpose: The purpose of this FDP is to understand various applications and future challenges of personalized drug delivery systems and role of 3D printing technology in pharmaceutical drug delivery.

Conclusion: Knowledge on various aspects of personalized drug delivery systems using 3D printing using 3D printed dosage forms, pharmaco- genomics, 3D customization of medicines and future scope; challenges of these techniques are understood.

WHO CAN ATTEND

The entire faculty from NRI College of Pharmacy & other Pharmacy institutes faculty members

ABOUT THE INSTITUTION

Sri Durga Malleswara Educational Society was established in 2007 with the objective of reaching the Zenith in the field of education. NRI College of Pharmacy, started in 2007 and NRI Institute Technology, started in 2008 are the result of such sincere and dedicated efforts and stern determination of the founders of the society. The founders are socially conscious and continuously responding to the needs and requirements of the region, to uplift the region and to promote educational facilities by establishing schools, to promote games and sports activities in the region, help the poor and improve their health standards by organizing free medical camps etc., NRI College of Pharmacy have been taking a place of pride every year JNTUK results are announced. NRI College of Pharmacy had added a feather to the crown of the Society by successfully placing its outgoing batch of dynamic young pharmacists in various esteemed Organizations.

VISION

To provide profound, diligent, magnanimity education in pharmacy.

MISSION

Involving faculty members and students in Research and Development to become globally competitive and for betterment of healthcare society. Providing Quality Education, Social Values, Professional Ethics, Developing Entrepreneurship values for the pharma Aspirants.

Report on FDP

Name of the Programme: A one week FDP on Application of Novel Drug Delivery System for Molecules of Herbal Drug Origin

Organized by: NRI College of Pharmacy

Date: 25.10.2021 to 31.10.2021

Resource Person: Dr. C. Gopi
Assoc Prof, GITE- Rajahmundry
Mobile no: 8500925346
Emailid: gopi@gite.ac.in

Objective of FDP

The objective of this FDP is to understand the impact of application of NDDS on molecules of herbal origin and their importance in the modern era of medicine.

Outcome of FDP

Various concepts of novel drug delivery systems and types of novel drug delivery system are discussed and compatibility of herbal drugs with various novel drug delivery systems, quality and efficiency of herbal formulations formulated using techniques of NDDS are also discussed.

Conclusion: Knowledge on various NDDS formulation like polymeric nanoparticles, nano capsules, liposome's, nano emulsions, phytosomes, microspheres and ethosomes that are being employed to herbal formulations to increase their efficiency and to reducing the side effects are clearly understood.

Emailid: rlc_sasidhar@chips.ac.in

Objective of FDP

The objective of this FDP is to understand various methods of qualitative and quantitative research and methods of research data interpretation.

Outcome of FDP

A platform was created to share knowledge on research strategies and concepts, logical and systematic plans to resolve research problems. Also, various statistical techniques of sampling like probability sampling, nonprobability sampling, data collection methods like surveys, observations and focus grouping are discussed.

Conclusion: Knowledge on qualitative, quantitative and mixed methods of research and research databases are clearly understood. Various statistical analysis techniques like regression analysis, factor analysis, descriptive analysis, dispersion analysis and discriminant analysis are clearly explained.

Report on FDP

Name of the Programme: A one week FDP on “Future of Pharmaceutical and Nutraceutical Industries”.

Organized by: NRI College of Pharmacy

Date: 07.02.2021 to 13.02.2021

Resource Person: Dr. V.D. Sundar
Professor, GITE- Rajahmundry
Mobile no: 9866402866
Emailid: sundar@gite.ac.in

Objective of FDP

The objective of this FDP is to understand the novel concepts of chemistry and biotechnology and their impact on pharmaceutical industry production challenges and present scenario of Nutraceuticals industries and their impact on market of pharmaceuticals.

Outcome of FDP

A platform was created to share knowledge on implementation of green chemistry and biotransformation concepts in pharmaceutical and Nutraceuticals industries and their impact on industrial production in future. Purpose: The purpose of this FDP is to understand the future of pharmaceutical and Nutraceuticals industries with impact of rapidly growing technology and various novel chemical and biotechnological strategies come into implementation.

Conclusion: An overview was developed on future of pharmaceutical industrial production and market and importance of Nutraceuticals against pharmaceuticals knowledge on various novel strategies in pharmaceutical and Nutraceuticals production such as concepts of green chemistry, biotransformation, continuous flow processes and biocatalysts in green industries and their impact on industries in future.

Approved by AICTE, New Delhi,
Permanently Affiliated to JNTU Kakinada,
Agiripalli, Vijayawada, India - 521212

ABOUT THE INSTITUTION

Sri Durga Malleswara Educational Society was established in 2007 with the objective of reaching the Zenith in the field of education. NRI College of Pharmacy, started in 2007 and NRI Institute Technology, started in 2008 are the result of such sincere and dedicated efforts and stern determination of the founders of the society. The founders are socially conscious and continuously responding to the needs and requirements of the region, to uplift the region and to promote educational facilities by establishing schools, to promote games and sports activities in the region, help the poor and improve their health standards by organizing free medical camps etc., NRI College of Pharmacy have been taking a place of pride every year JNTUK results are announced. NRI College of Pharmacy had added a feather to the crown of the Society by successfully placing its outgoing batch of dynamic young pharmacists in various esteemed Organizations.

VISION

To provide profound diligent, magnanimity education in pharmacy

MISSION

Involving faculty members and students in Research and Development to become globally competitive and for betterment of healthcare society, Providing Quality Education, Social Values, Professional Ethics, Developing Entrepreneurship values for Pharma Aspirants.

PROGRAM OBJECTIVE

- The objective of this FDP is to understand the novel concepts of chemistry and biotechnology and their impact on pharmaceutical industry production challenges and present scenario of nutraceutical industries and their impact on market of pharmaceuticals
- A platform was created to share knowledge on implementation of green chemistry and biotransformation concepts in pharmaceutical and nutraceutical industries and their impact on industrial production in future.
- The purpose of this FDP is to understand the future of pharmaceutical and nutraceutical industries with impact of rapidly growing technology and various novel chemical and biotechnological strategies come into implementation.

Report on FDP

Name of the Programme: A Five day FDP on “Targeted Delivery of Green Synthesized Nano Materials and their Importance in 21st Century”.

Organized by: NRI College of Pharmacy

Date: 18.04.2022 to 22.04.2022

Resource Person: Dr. P. Sreenivasulu
Assoc Prof, CHIPS-Guntur
Mobile no: 9849919876
Emailid: p_srinivasulu@chips.ac.in

Objective of FDP

The objective of this FDP is to understand the importance of green chemistry and methods of pharmaceutical nano particle production applying concepts of green chemistry in modern era of medicine.

Outcome of FDP

Concepts of green Chemistry and various methods of green nano particle production are discussed. Advantages of green synthesis of nanoparticles over traditional methods of production are also discussed.

Conclusion: Knowledge on materials used in green synthesis of nanoparticles like, plants and microorganisms was obtained. Various methods of preparation and grading of green nano particles are also clearly understood. Modes of nano particle synthesis like top- down approach and bottom-up approach are also explained.

Objective of FDP

- Understand basic concepts and methodology of research
- How to formulate and identify appropriate research area?
- Understand the steps in the process of research

Outcome of FDP

Faculty development programme will enhance the knowledge and skills of the faculty members in the domain of research. This programme will impart theoretical, methodological, practical and statistical instructions enabling the participants to find and solve the contemporary societal issues and challenges. Purpose: This FDP is aimed at honing the teaching and research skills of faculty researchers and trainers.

Conclusion: Designing research methodology is the important task in the research. Extensive literature survey will guide the researcher with knowledge and skills in the research.

Resource Person: Dr. T. Deepan
Professor, GITE-Rajahmundry
Mobile no: 6309093605
Emailid: deepan@gite.ac.in

Objective of FDP

This FDP will provide a platform to the researchers and academician to enrich their methodological and analytical skills.

Outcome of FDP

- Comprehend the research process and underlying design principles.
- Gain better understanding on how to identify a research problem and design a valid research project to answer specific research questions.
- Get hands-on training in the usage of several open source tools that can assist them in their research endeavors.
- Establish collaborations with the research community improve their quality of research.

Purpose: Currently, the teaching fraternity is missing their lively and interactive classrooms due to covid-19 pandemic.

Conclusion: The primary tools covered are those that would aid a researcher in a systematic background knowledge probe, data visualization, and effective presentation of results, writing research paper, preparation of reports and thesis and prevention against plagiarism.

ABOUT THE INSTITUTION

Sri Durga Malleswara Educational Society was established in 2007 with the objective of reaching the Zenith in the field of education. NRI College of Pharmacy, started in 2007 and NRI Institute Technology, started in 2008 are the result of such sincere and dedicated efforts and stern determination of the founders of the society. The founders are socially conscious and continuously responding to the needs and requirements of the region, to uplift the region and to promote educational facilities by establishing schools, to promote games and sports activities in the region, help the poor and improve their health standards by organizing free medical camps etc., NRI College of Pharmacy have been taking a place of pride every year JNTUK results are announced. NRI College of Pharmacy had added a feather to the crown of the Society by successfully placing its outgoing batch of dynamic young pharmacists in various esteemed Organizations.

VISION

To provide profound diligent, magnanimity education in pharmacy

MISSION

Involving faculty members and students in Research and Development to become globally competitive and for betterment of healthcare society. Providing Quality Education, Social Values, Professional Ethics, Developing Entrepreneurship values for Pharma Aspirants.

PROGRAM OBJECTIVE

- This FDP will provide a platform to the researchers and academicians to enrich their methodological and analytical skills.
- Comprehend the research process and underlying design principles.
- Gain better understanding on how to identify a research problem and design a valid research project to answer specific research questions.
- Get hands-on training in the usage of several open source tools that can assist them in their research endeavors.
- Establish collaborations with the research community improve their quality of research.
