Report on FDP

Name of the Programme: A one week FDP on “Innovation, Learning, and Research in Pharmaceutical Sector-A Transforming Era”.

Organized by: NRI College of Pharmacy

Date: 05.06.2017 to 11.06.2017

Resource Person: Dr. S. Vidyadhara
Principal, CHIPS, Guntur
Mobile no: 9849226300
E-mailid: s_vidyadhara@chips.ac.in

Objective of FDP

A FDP on Innovation, Learning and Research in Pharmaceutical Sector-A Transforming Era has a primary objective to promote high standards in pharmaceutical production and quality assurance. Innovation in medications can be crucial for maintaining quality of human life and may even affect its duration.

Outcome of FDP

To keep up with new technological developments and to strengthen one’s own R&D capabilities. Purpose: Purpose of this FDP is to learn the new innovations and research work carried out in the field of pharmacy.

Conclusion: The proposed five- day FDP provided knowledge about the process of adoption of Open Innovation in the pharmaceutical industry through a case study and analyses the empirical findings by framing it inside the current theoretical framework.

ABOUT THE INSTITUTION

Sri Durga Malleswara Educational Society was established in 2007 with the objective of reaching the Zenith in the field of education. NRI College of Pharmacy, started in 2007 and NRI Institute Technology, started in 2008 are the result of such sincere and dedicated efforts and stern determination of the founders of the society. The founders are socially conscious and continuously responding to the needs and requirements of the region, to uplift the region and to promote educational facilities by establishing schools, to promote games and sports activities in the region, help the poor and improve their health standards by organizing free medical camps etc., NRI College of Pharmacy have been taking a place of pride every year JNTUK results are announced. NRI College of Pharmacy had added a feather to the crown of the Society by successfully placing its outgoing batch of dynamic young pharmacists in various esteemed Organizations.

VISION

To provide profound, diligent, magnanimity education in pharmacy.

MISSION

Involving faculty members and students in Research and Development to become globally competitive and for betterment of healthcare society. Providing Quality Education, Social Values, Professional Ethics, Developing Entrepreneurship values for the pharma Aspirants.

Mobile no: 99123442094
Emailid: bcopprincipal@gmail.com

Objective of FDP

A FDP on Special Characterization of Pharmaceutical Substances has a primary objective of understanding of physical and chemical properties of pharmaceutical materials. These properties have a great impact on product performance, stability and appearance.

Outcome of FDP

In-depth knowledge on product chemistry, structure and biological activities facilitate easier process design to ensure that drug attains critical product safety, purity and potency. Purpose: Purpose of this FDP is to attain complete knowledge on various physical and chemical properties of drug substances and tests regarding Physiochemical Testing and Storage Stability.

Conclusion: The FDP useful to identify and quantify potential new drug candidates, determine purity, identify by-products, degradation products, Compatibility and stability studies. The physical and chemical properties have a great impact on drug substance fate in organism.

Objective of FDP

FDP on Drug Discovery and Dosage Form Designing was conducted with an objective of aims to keep fueling new medicines to cure and palliate many ailments and some untreatable diseases that still afflict humanity.

Outcome of FDP

This FDP provided insights into novel trends into drug discovery, development, repurposing and formulation. This would enable the faculty to gain technical expertise and thus facilitate keeping structure well informed with contemporary development in drug discovery and development. Purpose: This FDP targets concepts of multiple considerations involving in drug discovery and dosage form designing such as properties of drug molecule, excipients, compliance, storage, packing and stability.

Conclusion: This FDP provided a platform to learn the tools and techniques needed for the design and development of digital resources for teaching and learning.

Report on FDP

Name of the Programme: A Five days FDP on "Emerging Trends in Herbal Drug Research".
Organized by: NRI College of Pharmacy
Date: 26.12.2017 to 30.12.2017
Resource Person: N. D. Nizamuddin
St. John's College of Pharmacy
Mobile no: 9703868331
Email id: drnizauddin.chemistry@gmail.com

Objective of FDP

This FDP has a objective to understand basic concept of herbal drug development, standardization, pharmacokinetic and chemical characters of plant products and extracts. This FDP also covers the pK-pD, interaction studies for herbal drug development and as well as regulatory challenges and patents on herbal products.

Outcome of FDP

This FDP provides knowledge on emerging trends in products of herbal origin, medicinal plants derived nutraceuticals, dietary supplements and phytopharmaceuticals. It also provides knowledge on recent trends in extraction and isolation techniques. Purpose: Usage of complementary and alternative medicine has been increasing worldwide during the past decades and herbal medicine was often found to be most popular among them, thus this FDP is organized with a purpose of establishing clear conceptual knowledge on research of herbal medicines.

Conclusion: FDP covered various aspects involved herbal drug research and provided key concepts such as, in case of herbal medicines knowledge on interactions and side-effects would be little, so a great care will be taken in isolation and purification process of medicinal herbs.

ABOUT THE INSTITUTION

Sri Durga Malleswara Educational Society was established in 2007 with the objective of reaching the Zenith in the field of education. NRI College of Pharmacy, started in 2007 and NRI Institute Technology, started in 2008 is the result of such sincere and dedicated efforts and stern determination of the founders of the society. The founders are socially conscious and continuously responding to the needs and requirements of the region, to uplift the region and to promote educational facilities by establishing schools, to promote games and sports activities in the region, help the poor and improve their health standards by organizing free medical camps etc., NRI College of Pharmacy have been taking a place of pride every year JNTUK results are announced. NRI College of Pharmacy had added a feather to the crown of the Society by successfully placing its outgoing batch of dynamic young pharmacists in various esteemed Organizations.²

VISION

To provide profound, diligent, magnanimity education in pharmacy.

MISSION

Involving faculty members and students in Research and Development to become globally competitive and for betterment of healthcare society. Providing Quality Education, Social Values, Professional Ethics, Developing Entrepreneurship values for the pharma Aspirants.

Resource Person: V. Alekya
Assoc Prof, GITE-Rajahmundry
Mobile no: 8977648666
Emailid: v_alekya@giteac.in

Objective of FDP

A FDP on Renewable and Hybrid Energy Technologies was organized with agenda of understanding energy conservation practices and increased clean energy utilization so that the fossil fuels can be preserved for long term usage and consequently reduced greenhouse gas emission.

Outcome of FDP

The FDP provided knowledge on concepts of recent advances in renewable and hybrid energy technologies. Purpose: Purpose of this FDP is to address key scientific challenges in the field of advanced material for energy storage and clean energy conversion technologies.

Conclusion: FDP covered various concepts of renewable and hybrid energies, such as thermoelectric materials and smart energy systems. It also provided knowledge on steps involved in construction of energy storage systems such as, site selection criteria, stability and hydrodynamics, structure and environmental criteria's.

Objective of FDP

The objective of this FDP is to gain insights regarding recent trends followed in pharmaceutical industries on research projects in the scope of revenue generation.

Outcome of FDP

The field of pharmaceutical research is continuously evolving and highly dynamic, with foundations on various aspects such as, discovery of novel molecules, formulation processes and biopharmaceutics. Although service to patients is the main objective, revenue generation is also a critical factor for growth of pharmaceutical sector and availability of funds for research. Purpose: The concept of revenue generating research projects and their crucial necessary for futuristic research is discussed.

Conclusion: Knowledge on various concepts of selecting revenue generating research projects are understood and its importance in development of pharmaceutical sector and in advancement of pharmaceutical research are also established.

Objective of FDP

Five days Administrative Training Programme for non-teaching staff.

Outcome of FDP

Administration basically means taking care of all the day to day activities of a college, supervising daily happening of the college and maintenance discipline and order. Maintaining the accountant of a college is one of the most important aspects for running it.

Conclusion

It is very useful for the smooth functioning and organizing of college system.
